The beef industry has remained competitive throughout 2019/20, with corrections driven mainly by the weather. The outlook moving forward looks very positive with continued high demand for beef as a protein source.

Australia has maintained its reputation as a niche, high quality, clean beef product. This needs to continue for Australian beef producers to be competitive around the world. Our major competitors are producing high volumes of lower quality, bulk product, therefore drawing the price down. It is imperative that Australian beef producers continue using the highest quality genetics to maintain our competitive edge.

2020 will see the first draft of bulls coming through the IGS System rather than the Breedplan analysis. IGS is an American data recording system incorporating all breeds from Canada, NZ and the USA. This will enable Shorthorn breeders to be analysed in a multi breed register, with a higher emphasis on DNA technology. Therefore enabling breeders to remain extremely competitive in the world beef industry.

The 2020 draft of intensively selected bulls have come through some of the toughest physical conditions ever seen in our 76 years of continuous breeding. To their credit they have rebounded quickly, showing the emphasis we have placed on high constitution and doing ability for survival.

The 2020 catalogue will see new high indexing genetics from Yamburgan Monsoon J37, Yamburgan Everest G637, both in the top 1% for API index and Yamburgan Emperor K28, Top 4% for API index. Also catalogued is a very impressive draft of yearling bulls by new sires Yamburgan Gigabytes M1052 and Yamburgan Spartan N27 with several of the leading bulls in this contemporary group.

From the team at Manchee Agriculture we thank you for your support and look forward to seeing you for our open day on the 18th August 2020 and sale day on the 26th August 2020.

John Manchee
Performance recording is of vital importance in the Manchee Agriculture operation. MA believes in the utilisation of large contemporary groups to allow animals, that meet our tough selection criteria, to be identified and offered at our sale. This year two year old bulls were assessed for scanning in a contemporary group of 88 bulls, the yearling bulls were in a group of 41 bulls and the Durham Tropical bulls were in a group of 33 bulls.

Our ability to focus on the combination of practical breeding principles including fertility, calving ease, weight for age and carcase quality sets MA apart when it comes to our strength in all selection indexes.

**CALVING EASE DIRECT (CE-D)**
Reported as the percentage of extra unassisted births in first calving heifers, relative to the average. CE-D is relative to the direct Calving Ease of the animal. Higher values are more favourable.

**CALVING EASE MATERNAL (CE-M)**
Reported as the percentage of extra unassisted births in first calving heifers, relative to the average. CE-M is relative to the Calving Ease of the daughters of the animal. Higher values are more favourable.

**MILK**
Reported as pounds of weaning weight of progeny from the animals daughters, relative to the average. Predicts the difference in maternal production of daughters relative to milk production and mothering. Values are relative to the environment of the production system. Low input environments should be very conscious of introducing too much milk due to the increased nutrient requirements that it can place on cows.

**MATERNAL WEANING WEIGHT**
Reported as pounds of weaning weight of progeny from the animals daughters, relative to the average. This is a measure of weaning weight differences relative to the combined effects of growth and milk. Breeders who are not looking to change milk production should consider Total Maternal as the most relevant EPD for maternal weaning weights. Higher values are more favourable.

**STAYABILITY (STAY)**
Reported as the differences in percentage of a sire’s offspring that are predicted to still be in the herd at 6 years of age – given that they calved at 2, relative to the average. Stayability is a measure of reproductive longevity. Higher values are more favourable.

**DOCILTY**
Reported as the percentage of progeny, relative to the average, that will record a score of docile. Higher values are more favourable.

**BIRTH WEIGHT**
Reported in pounds of birth weight relative to the average. When selecting bulls to use on heifers, breeders should also focus on the Calving Ease EPD as Birthweight is already used in the Calving Ease EPD calculation.

**WEANING WEIGHT - ADJUSTED TO 205 DAYS**
Reported in pounds of weaning weight of direct progeny, relative to the average. Higher values are usually more favourable dependant on its relationship with birthweight.

**YEARLING WEIGHT - ADJUSTED TO 365 DAYS**
Reported in pounds of yearling weight of direct progeny, relative to the average. Higher values are usually more favourable dependant on its relationship with birthweight.

**CARCASE EPD’S - ADJUSTED TO 475 DAYS OF AGE**

**CARCASE WEIGHT**
Reported as pounds of Carcase Weight relative to the average. Higher values are usually more favourable, however this is relevant to each producers target market.

**RIB EYE AREA**
Reported as square inches relative to the average. Higher values are usually more favourable.

**FAT**
Reported as inches of back fat relative to the average. Higher values are usually more favourable, however this requires a balance between adequate doing ability in daughters and carcase fat thresholds for target markets.

**YIELD GRADE**
Reported as expected differences in progeny average USDA Yield Grade scores.

Yield Grade is used to improve the yield potential of progeny and may seem a strange value for Australian animals. Whilst Australian animals will never receive a USDA graded Yield Grade score, they will also never receive an actual Retail Beef Yield % value either. However, US Shorthorns [including progeny of Australian sires used in the US] are USDA graded each year and so the pedigree linkages provide linkage to actual.

**USDA Yield Grade values**
Lower values are usually more favourable, however because of the negative correlations between fat and yield it is important to maintain some balance in the selection.

**MARBLE SCORE**
Reported as the differences in actual carcase marble scores relative to the average. This is different to IMF% which is used as an indicator trait in Marble Score. Higher values are more favourable.

**ALL PURPOSE $INDEX - API**
Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That’s where $ Indexes come in. Through well conceived, rigorous mathematical computation, $ Indexes blend EPD’s and economics to estimate an animal’s overall impact on your bottom line.

The All Purpose $Index (API) evaluates sires for use on the entire cow herd, bred to both first-calf heifers and mature cows, with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put onto feed and marketed for both quality grade and yield.

**UNDERSTANDING ACCURACIES**
BOLT EPD accuracies have experienced the most change, usually lowering numerically and especially for non-parent animals, however the reported accuracy will be more accurate. Accuracy refers to the amount a reported EPD can possibly change as more data is added. EPD values with higher accuracy result in less possible change for the value over time. More accurate accuracies better represent the amount of possible change for each EPD.
**SELECT LOTS**

Lots showing the YY logo are selected as potential sires for Manchee Agriculture to use in the future. Manchee Agriculture retains the right to collect up to 300 straws, for in herd use at no cost to the purchaser. Manchee Agriculture will collect semen at an agreed time with the purchaser.

**ONLINE BIDDING & LIVE STREAMING**

Due to the success of the last three years of live streaming, we will be offering clients the chance to bid online, including live streaming with Auctions Plus. See below for more details. Visit - http://auctionsplus.com.au

**SOCIALISE WITH US!**

You can keep up to date with what’s happening at Manchee Ag via social media. A bull sale preview will be available on our YouTube channel along with sire videos and steer trial information.

YAMBURGAN ZEUS H140 (P)
22 April 2012
Zeus H140 is an outstanding sire, offering low birth weight, calving ease and a proven carcase sire. The further we go down the track with Zeus, the more impressed we are with his progeny. His daughters are very feminine, fertile and highly productive females. The dam, BP Harmony F55 is still breeding at 10 years of age. A wide barreled, soft easy doing cow, who is also the dam of retained sires, Y Gigabytes M1052, Y Monkira K303 and Y Anzac Q201. Zeus H140 is represented by 9 sons.

YAMBURGAN MONSOON J37 (P) (AI)
26 February 2013
Monsoon J37 is a very stylish, good fronted sire, who is extremely well muscled and carries a lot of width of body. His dam Y Countess G98 is also the dam of retained sires Y Gigabytes P22, Y Gigabytes N518 and Y Zeus M499, with sons coming through by these sires in the coming years. Y Countess G98 is also the dam of Y Spartan K442, who sold to the Bungulla stud for $38,000 in 2016. Moonson J37 is represented by 5 sons.

YAMBURGAN EMPEROR K28 (P)
22 February 2014
Emperor K28 has bred an excellent line of bulls, all with his trademark wide hindquarter and thurle placement. A stylish, upstanding very balanced sire that always holds his condition extremely well during the joining season. The dam Y Connie C202 is an outstanding, big, wide barreled type of female with a beautiful bag of milk. Emperor’s extra width comes from this female. Y Connie C202 is still breeding at 12 years of age. Emperor was sold to the Manaroo stud for $14,000 in 2015. Emperor K28 is represented by 10 sons.

YAMBURGAN OSSIE E65 (P)

3 July 2009

Ossie is a moderate framed, slick coated, high yielding sire with excellent feet and leg structure. Ossie only passed away in January this year as a 10 year old bull. He has bred a legacy of beautiful breeding females, who are always quick to re-breed and maintain condition extremely well. The dam Y Jill 132nd comes from a line of females who always bred above themselves and very true to type. Sons of Ossie E65 have sold to a top of $42,000 to the Futurity Stud in 2017. Ossie is represented by 3 sons.

YAMBURGAN GIGABYTES M1052 (P)

8 December 2016

This is the first drop of calves to be offered by Y Gigabytes M1052. A long bodied, high muscling and marbling sire, which genetically is a rare combination. His progeny have stood out since they were calves and we are very impressed with his performance to date. His dam BP Harmony F55 is also the dam of Y Zeus H140, Australia’s most widely used sire over the last 2 years. M1052 is represented by 4 sons.

YAMBURGAN SPARTAN N27 (P)

11 March 2017

Spartan N27 is a soft, well muscled, very wide thurled bull, with tremendous presence and sire appeal. A bull that scanned and performed at the top of his contemporary group. Spartan was first used as a 14 month old bull and has been heavily worked over the last 2 years. His dam is a high performing, high milking female with lots of body capacity and is still in production. Pictured is the sire of N27, Y Spartan K442. Spartan N27 is represented by 9 sons.

MANCHEE LANCELOT J307 (P)
7 September 2013
Lancelot J307 was an outstanding individual from a very early age. A sire with an enormous carcase pattern and yield potential in a soft package. A sire we regard very highly. J307’s dam is a beautiful feminine breeder and is also the dam of Manchee Jester D281, a proven carcase producing sire. Homozygous Polled.
He is represented by 8 sons.

MANCHEE MAJOR L570 (P) (ET)
12 September 2015
A soft, easy doing, high performing ET son of Wave Hill Major. The Major L570 progeny tend to be high IMF and marbling cattle. We have been very impressed with his consistency of carcase feedback and he has been our highest joining rate sire over the last 2 years. The dam M Trinket F345 has exceptional body capacity and muscling for such a feminine female, she is from the same family line as J307 and D281.
He is represented by 3 sons.

MANCHEE JOKER L501 (P)
25 August 2015
Joker L501 was a standout individual within his contemporary group and scanned highly across the board for all traits. A heavy, good weight for age bull with an exceptional muscle pattern and depth of hindquarter.
A potent, consistent sire with very high libido and work ethic. Joker L501 always holds his condition through the joining season.
He is represented by 7 sons.

KIDMAN QUICKSILVER J32 (P)
1 September 2013
J32 was purchased from Kidman Park to maintain the Mexico bloodline through the potent Quicksilver line. J32 has bred high marbling, easy maintenance and high growth progeny. [Top 10% for 200, 400 and 600 day weight]
His represented by 1 son.

Purchaser: ____________________________  
$ ____________________
A very balanced, excellent structured bull who always stands square with his head above his spine. A bull with a lot of sire appeal and presence about him. A slick, deep rich coloured bull with tremendous depth and fill along the topline.

DOB: 13/03/2018
REG: YY P82
COLOUR: RED

LOT 6 YAMBURGAN BEDOURIE P82 (P)

Purchaser: $__________

LOT 7 YAMBURGAN MUMBAI P48 (P)

A longer bodied Kubal M74 son with a very well laid in shoulder and neck extension. An easy moving, soundly structured bull who’s dam is a maternal sister to Y Tobermoney F90.

DOB: 23/02/2018
REG: YY P48
COLOUR: RED LITTLE WHITE

Purchaser: $__________

LOT 8 YAMBURGAN MONSOON P161 (P)

One of the best performing bulls of the spring drop. Lot B scanned at the top of the group for most traits. A loose skinned, soft easy doing bull with a lot of carcase yield and sire potential. Dam line traditionally breeds very ease care, low maintenance progeny.

DOB: 16/06/2018
REG: YY P161
COLOUR: RED

Purchaser: $__________
A very slick coated, short haired, stylish fronted sire with a lot of presence about him. Lot 9 displays a lot of width of top line, right through to behind the shoulder. Dam Y Jill E91 has had bulls sell to a top of $20,000 in 2016 and is from the same direct maternal line as Y Ossie E65.

A very impressive H140 son, slick coated, smooth shouldered with an excellent rein of neck. A standout bull with a lot of potential. Lot 10 is one of those bulls that always catches your eye, a very sound structured bull with a lot of depth through the flank and hindquarter.

A bigger, heavier bull that ticks a lot of boxes. A little more bone than some of the bulls above him. Lot 11 displays good depth of hindquarter, width and looseness of skin, indicating he will grow on into an impressive sire.

DAM: YAMBURGAN DANCER H672 (P)  
YAMBURGAN OSSIE D96 (P)  
YAMBURGAN ROYAL 71ST (P)  

A fine haired, bigger framed bull with good length of body and weight for age. Lot 14 scanned well within his contemporary group for REA, fats and marbling. The combination of genetics with Loyal and Emperor will breed very good doing and quick rebreeding females.

Purchaser: ____________________________ $______________
A bigger framed, long bodied bull, who has really hit his straps. Developing a lot of depth of carcase through the lower leg and twist. A soft fine haired bull with an excellent temperament. The Dam of Lot 15 Y Margaret H86 is a typical Emperor type of female, very soft, well framed with an excellent bag of milk. A maternal brother sold for $26,000 to David White in 2015.

Purchaser: ________________________________ $______________

A very correct, quiet bull with tremendous rein of neck and angulation of shoulder. Lot 16 has a soft muscle pattern, indicating meat quality. A bull with a lot of potential, well worth an inspection.

Purchaser: ________________________________ $______________

A very impressive young sire and one of the standout lots to be offered this year. A big framed, soft, easy doing bull with a very strong top line and impressive muscle capacity. Lot 17 scanned at the top of the tree for most traits. The Dam and Grand Dam of Lot 17 have both been impressive breeders over a long period. Moderate framed, soft easy doing, quick rebreeding females.

Purchaser: ________________________________ $______________
A very soft, easy doing Everest Son who has always stood out in the group, an impressive weaner who has grown on and scanned evenly across the board for all traits. The Dam of Lot 18, Y Moria J151 is a very impressive female. A bigger framed, very wide bodied female who calves early, sons have sold to a top of $16,000 in 2017.

A good weight for age Zeus son with a very strong top line and meat filling all the way behind the shoulder. A lower birthweight bull, well suited to heifers and mature cows.

A long bodied, deep flanked, good natured bull with a lot of neck extension who always holds his head above his spine. Lot 20 scanned very well for REA and marbling within the group.

A bigger framed, wide thurled bull who catches your eye. Lot 24 combines structural correctness, balance and maternal strength all in the one package.

Lot 25 is a quiet, good natured General son who scanned at the top of the group for Rib and Rump fats and above average REA and marbling.

A standout bull with a lot of potential. Lot 26 is one of the heaviest bulls in the group with an excellent REA scan. A bull with a lot of sire appeal, stands square with tremendous width behind the shoulder, right through to the hind quarter.
A beautiful soft roan bull with a lot of spring of rib, constitution and depth through the lower leg. A heavier bull with the trademark width of thurle that Emperor K28 produces.

A well muscled, earlier maturing H140 son, with a very low birth weight. Lot 28 has one of the best hind quarters of all the spring bulls, tremendous expression of muscle right along the top line, loin and through to the lower leg and twist. A stylish young sire with a lot of sire appeal that is backed up with a great genetic combination and data set.

One of the best fronted bulls catalogued, a bull that catches your eye. An excellent sheath with good feet and leg structure, Lot 29 is from the same family line as Lot 28.

One of the best fronted bulls catalogued, a bull that catches your eye. An excellent sheath with good feet and leg structure, Lot 29 is from the same family line as Lot 28.
A bigger, heavier type of bull who is really hitting his staps. Wide behind with a lot of spring right through his body. A good combination of genetics with Zeus and Ossie, creating a good balance of performance.

DOB: 11/08/2018   REG: YY P346   COLOUR: RED

LOT 30 | YAMBURGAN HEADINGLY P346 (P) | HBR

A lower actual birthweighted bull with very balanced performance data. A good natured, quiet bull who is very efficient in his movement with large testicles to cover his females quickly.

DOB: 30/07/2018   REG: YY P333   COLOUR: RED LITTLE WHITE

LOT 31 | YAMBURGAN ZEUS P333 (P) | HBR

A standout Ossie E65 son with his trademark short, slick coat. A very well muscled bull with tremendous expression of muscle over the loin and right behind the shoulder. A high yielding genetic combination, with a low actual birthweight of 40kg. A bull with a maturity pattern to suit all breeding programs, not massive in frame, but like all the bulls this year, hasn’t had a chance to grow because of such a tough season. This is one of our best producing female lines, the Grand Dam produced 11 calves in 11 years with a very low calving interval and sale bulls averaging $14,500.

DOB: 18/07/2018   REG: YY P233   COLOUR: RED LITTLE WHITE

LOT 32 | YAMBURGAN ANZAC P233 (P) | HBR

**DAM:** YAMBURGAN VIOLET F296 (P)

The Dam of Lot 35 died when he was 2 month old, this bull has had to fight his whole life, incredible how the genetics have carried him through. Probably shouldn't have been analgised within this group, which shows with his low growth figures, But has bounced back with excellent carcase scanning for REA and marbling. A standout individual in this part of the catalogue, a bull to watch.

A bigger framed bull with good weight for age and impressive Rib Eye Area and marbling data. A balanced, easy moving bull who will look impressive as a mature sire. Dam has consistently bred high performance progeny, with three sons averaging $8,000.

A wide bodied, wide hind quartered bull with excellent structure and movement. His spring of rib and deep heart room indicates a high Rib and Rump scanning bull. A bull with very similar genetics to Lot 32. He will breed very true to type.

An early maturing, good natured bull with good fill through the twist and lower hind quarter. A soft easy doing, low maintenance bull with excellent testicular development.

Page 23
A very soft easy doing, well fleshed bull who will add diversity to any breeding program. Dam is the mother of Y Zeus L201 who sold to Barry Crotty for $18,000 in 2017. A standout lot in this part of the catalogue with one of the most balanced data sets of any bull.

A standout yearling who has grown on into a very impressive, young sire. A soft easy doing bull with a lot of loose skin and room to grow. Its rare to see a bull combining low birth with high growth and muscling ability.

A soft, good natured, sound structured bull with a moderate birthweight and good growth figures. The Dam of Lot 50 is a beautiful roomy, easy doing female, who is a maternal sister to Y Tobermoney F90.

An outstanding sire prospect. Lot 60 has always been one of the best weight for age bulls of the drop. A bull that combines muscle, width and softness all in the one package. A very balanced, sound structured bull with tremendous fill over the loin and behind the shoulders. Dam is an outstanding female with an excellent bag of milk, a great combination of genetics with Kookaburra and Emperor:

Yamburgan Tobermorey F090 (P)  
Yamburgan Connie D133 (P)

Yamburgan Mimi G14 (P)  
Yamburgan Mimi E19 (P)

A beautifully balanced, sirey headed bull who always stands square and catches your eye. One of the best muscle patterns of any bull catalogued this year. It’s rare to see a bull with this much muscle have the freedom of movement and angulation through the neck and shoulder. The Grand Dam Y Mimi G14 is the Dam of Y Emperor L63 who sold to the Weebollabolla Stud for $38,000 in 2016.

Purchaser: ________________________________  $________________________
A well grown, good weight for age bull who scanned highly within his contemporary group. A slightly later maturing bull with a beautiful re-in of neck and shoulder placement. Lot 64 will breed beautiful replacement females.

A heavier bull with a lot of width through the thurle and a very strong, wide top line. Dam Y Connie M7 is also from the same line as Y Tobermoney F90, very similar genetics to Lot 62.

An impressive Gigabytes son with a lot of width and length from hip to pin. A deep bodied bull with good heart room, softness with an excellent temperament.

Page 31
An efficient, good moving bull with a lot of length of body. A lower birthweight bull, with an excellent shoulder placement and well suited to heifers. Grand Dam is the mother of retained sire Y Normanby J70.

A long bodied, correct, easy moving bull with the trademark M1052 strength of loin and top line. A low birthweight bull, well suited to heifers.

A stylish, very sirey M1052 son, who was a standout weaner. A softer, good doing bull with a high Rib Eye Area Measurement. Dam is a beautiful Matilda female with very similar genetics to the dam of retained sire Y Bedourie P94.

A soft, easy doing, loose skinned bull who will grow on. A very quiet, sirey headed bull with a wide muzzle and good spring of rib and heart room. Dam is also a full sister to Y Gigabytes M1052 and the grand Dam is the mother of Y Zeus H140. A young sire with a lot of potential.

Purchaser____________________________________________________________________$______________

BULK BUYING BONUS

Zoetis have kindly donated 2 x 500ml of Dectomax Injectable valued at $560 to be awarded to the purchaser of the largest quantity of bulls (with the highest average).

We thank Zoetis (formally Pfizer) for their continued support of Manchee Agriculture.
The Durham Tropical program was developed in conjunction with a Central Australian cattleman to breed bulls that have high meat quality, fertility and heat tolerance. To do this we incorporated our two highest DNA tested Santa Gertrudis sire lines for marbling and tenderness. The selected sire lines were backed by females of exceptional breeding quality, with 100% fertility. The Durham Tropical cattle continue to perform both in feedlot and carcase competitions as well as in our breeding program with stringent fertility and adaptability requirements. Durham Tropical steers have performed well in all steer trials competed in. In 2014 and 2013, Durham Tropical steers won the RAS 70 day domestic competition and in 2013 they won Champion EU pen of steers in the Primex Beef competition.

---|---
DOB: 03/09/2018  | REG: YY P769  | COLOUR: Red

**Sire:** MANCHEE JESTER J128  
**Dam:** MANCHEE JASMINE J685

A very quiet bull that is hard to fault. A complete, sound structured, very soft bull with a good EMA to weight ratio.

Purchaser: ___________________________  $ __________
A deeper bodied, well rounded bull with a lot of heart room and constitution. Lot 88 is one of the highest rib and rump scanning bulls of the contemporary group. An earlier maturing, sound structured bull who is well suited to higher BOS Indicus content females.

Purchaser: _______________________________ $__________

A bull well suited to British bred females. A very long bodied, good shouldered bull who has a lot of efficiency of movement.

Purchaser: _______________________________ $__________

A soft, easy fleshing bull with good width of hind quarter and depth of flank. An earlier maturing bull, well suited to bigger, higher maintenance females.

Purchaser: _______________________________ $__________

A bull that catches your eye in this part of the catalogue. A loose skinned, well muscled bull with good depth through the twist and a maturity patter to suit both domestic and export markets. Lot 91 is well worth an inspection.

Purchaser: _______________________________ $__________

A great combination genetics with Joker and Dunkirk in the pedigree of Lot 92. A bull that ticks a lot of boxes with his overall softness, balance and very neatly shaped shoulder and rein of neck. Lot 92 will grow on into an exceptional sire.

Purchaser: __________________________________________ $__________

DIRECTIONS TO MANCHEE AGRICULTURE

YOU CAN ALSO FIND US ON GOOGLE MAPS BY SEARCHING FOR MANCHEE AGRICULTURE.
Look for blue & white MANCHEE AG road signs.

FROM GUNNEDAH:
Travel on the Kamilaroi Hwy through Boggabri, approx 17km turn right towards Harparary & Maules Creek. After going over the Namoi River, at a telephone exchange, turn left. Travel 8 km, turn left towards Narrabri at the T-intersection. Travel 8 km to Manchee Ag on the left.

FROM NARRABRI:
Follow the main street (Maitland St) south east, under the railway overpass near the RSL club on the outskirts of town. Continue on this road for 12 km, turn left onto the Maules Creek Rd. Do not go over the Namoi River (single lane bridge). Travel on this road for 9 km.

ACCOMMODATION CAN BE DIFFICULT TO GET IN NARRABRI - PLEASE BOOK EARLY. MOTEL DETAILS ARE AVAILABLE ON THE SALE INFORMATION PAGE.

Independant sale day advice
from Alastair Rayner

Lots showing the YY logo are selected as potential sires or donors for Manchee Agriculture to use in the future. Manchee Agriculture retains the right to collect up to 300 straws, for in herd use at no cost to the purchaser. Manchee Agriculture will collect semen at an agreed time with the purchaser.

**SUPPLEMENTARY SHEET**

All bulls will have up to date weights, EMA, fat depth, scrotal size measurements and have been semen tested. A supplementary sheet with this information will be available from the 21st August, 2020. EPD figures are printed in the catalogue. Any bull with a shaded EPD figure indicates he is in the Top 20% of the breed for that trait.

**INSPECTION**

We encourage prospective buyers to inspect cattle prior to sale. This gives us an opportunity to assist you in your selection of the best genetics for your requirements. Inspection on sale day will be from 9am. An Open Day and BBQ will be held on the 18th August, 2020, 9am.

**ACCOMMODATION**

Accommodation can be hard to get in Narrabri, we recommend you book early.
Nandewar Motor Inn – (02) 6792 1155 or 1800 027 941.
Southern Cross Motor Inn – (02) 6792 3838.
Club Motor Inn - (02) 6792 3191
Mid Town Inn - (02) 6792 2233
Adelong Motel - (02) 6792 1488

**TRANSPORT**

Bulls sold in to Queensland, South Australia, Victoria, Tasmania and Northern Territory are eligible for a transport rebate from Manchee Agriculture to the NSW border only.

**HEALTH**

All bulls have been vaccinated with 7 in 1 and Pestiguard and drenched with Dectomax on 16th June 2020. Booster shots are due in June each year. Semen testing will be carried out by Geoff Steinbeck, Excel Genetics, Dungowan. (02) 6769 4251. The bulls are guaranteed fertile on the day of the sale.

**BREEDING GUARANTEE**

All bulls are guaranteed to be breeders with the exception of:
(a) In the event of injury or disease that occurs to the animal after the sale;
(b) Gross negligence or wilful misconduct on the part of the purchaser.

**BUYERS INSTRUCTION**

1. No verbal instructions will be accepted.
2. Please use the instruction slip provided by the settling agents and hand it to the booking clerk before leaving.
3. Instructions for dispatch for consignments comprising of more than one owner must be signed by each buyer, no instructions will be considered complete until all have been signed.
4. All bulls will be sold GST exclusive.

**BUYER REGISTRATION**

We request that all prospective buyers register and receive a buyer number before the sale.

**OUTSIDE AGENT REBATE**

An outside agent rebate of 3% will be offered to agents who attend the sale and introduce their clients in writing to Hamilton Mortimer Agency, 02 6792 3163, at least 24 hours prior to the sale. Agents introducing their clients in writing at least 24 hours prior to the sale and not attending the sale will be paid a 1% rebate. The rebate WILL NOT be paid outside these conditions.

**AIRCRAFT**

There is an airstrip at Narrabri. Vendor’s agents will be happy to arrange transport to the sale. Please make contact well before the sale date.

**DISCLAIMER**

The vendors, selling agents, its members, related corporations and employees, will act with due care to provide correct information but will not be responsible for any errors or omissions in this catalogue. All persons who attend the sale do so entirely at their own risk and the vendor, Manchee Agriculture, JT & EN Manchee, LJC & RT Manchee and the selling agents do not assume or accept any responsibility or liability, of whatever nature, legal or otherwise, for any accident, injury or damage which may occur.
